DETAILED ACTION

This Office Action is in response to Amendment C, dated 7/3/03, in Paper No. 17.

Allowable Subject Matter

Claims 11-19 are allowed.

The following is an examiner's statement of reasons for allowance:

In reference to claim 11, Misium teaches a method comprising:

Providing the silicon-oxide containing layer over a substrate; the layer having an upper surface above the substrate and a lower surface on the substrate (Fig.2A (12))

Exposing the layer to activated N species from a N-containing plasma to introduce N into the layer and form a N-enriched region, the N enriched region being only in an upper half of the SiO containing layer (Fig.2B (22)); and

Thermally annealing the N within the N-enriched region to bond at least some of the N to Si proximate the N(Col.4, lines: 55-50);

The N-enriched region remaining confined to the upper half of the SiO containing layer during the annealing.

However, as Applicant points out in his arguments dated 7/3/03, Misium fails to teach Applicant's amended limitation of "thermally annealing the nitrogen while the bare upper surface of the silicon oxide containing layer remains bare". Misium teaches that a nitride layer is formed over the silicon oxide layer and removed *after* annealing. Misium fails to teach nor

suggest conducting the annealing step without the nitrided layer being present. Consequently, Applicant's claim language is not anticipated and claims 11-19 are deemed allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: http://www.uspto.gov/main/howtofees.htm.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.
